Portfolio Summary

The allocations below show the percentage investments based on the approved asset classes/types, as approved in the Investment Policy, and dictated by the Commonwealth of Virginia.

Cash remains liquid in Bank of America and the Local Government Investment Program (LGIP), which is administered by the Commonwealth of Virginia. In addition, the County launched a laddering program for long-term investments in the fourth quarter of FY25, introducing agency zero-coupon bonds to the portfolio. This strategy enhanced diversification and helped mitigate the risk of overexposure to short-term interest rate fluctuations. The laddering program completed its introductory phase early December, returning funds to the custodian's liquid program.
