BACKGROUND:

At its meeting on March 5, 2019, the Planning Commission voted to recommend approval of SP201800022 with the conditions recommended by staff in the presentation. The presentation by staff reflected a revision to Condition #4, which addresses noise, that more appropriately considered the current zoning of the site. The Commission's staff report, action memo, and minutes are attached (Attachments A, B, and C).

DISCUSSION:

The Planning Commission recommended approval of the special use permit with the recommended conditions.

Since the Planning Commission meeting, staff has again revised Condition #4 to add clarity to the interpretation and implementation of the condition in the future. There is no substantive change to the condition.
