

Virginia Code § 15.2-2232. Legal status of plan.

A. Whenever a local planning commission recommends a comprehensive plan or part thereof for the locality and such plan has been approved and adopted by the governing body, it shall control the general or approximate location, character and extent of each feature shown on the plan. Thereafter, unless a feature is already shown on the adopted master plan or part thereof or is deemed so under subsection D, no street or connection to an existing street, park or other public area, public building or public structure, public utility facility or public service corporation facility other than a railroad facility or an underground natural gas or underground electric distribution facility of a public utility as defined in subdivision (b) of § [56-265.1](#) within its certificated service territory, whether publicly or privately owned, shall be constructed, established or authorized, unless and until the general location or approximate location, character, and extent thereof has been submitted to and approved by the commission as being substantially in accord with the adopted comprehensive plan or part thereof. In connection with any such determination, the commission may, and at the direction of the governing body shall, hold a public hearing, after notice as required by § [15.2-2204](#). Following the adoption of the Statewide Transportation Plan by the Commonwealth Transportation Board pursuant to § [33.2-353](#) and written notification to the affected local governments, each local government through which one or more of the designated corridors of statewide significance traverses, shall, at a minimum, note such corridor or corridors on the transportation plan map included in its comprehensive plan for information purposes at the next regular update of the transportation plan map. Prior to the next regular update of the transportation plan map, the local government shall acknowledge the existence of corridors of statewide significance within its boundaries.

B. The commission shall communicate its findings to the governing body, indicating its approval or disapproval with written reasons therefor. The governing body may overrule the action of the commission by a vote of a majority of its membership. Failure of the commission to act within 60 days of a submission, unless the time is extended by the governing body, shall be deemed approval. The owner or owners or their agents may appeal the decision of the commission to the governing body within 10 days after the decision of the commission. The appeal shall be by written petition to the governing body setting forth the reasons for the appeal. The appeal shall be heard and determined within 60 days from its filing. A majority vote of the governing body shall overrule the commission.

C. Widening, narrowing, extension, enlargement, vacation or change of use of streets or public areas shall likewise be submitted for approval, but paving, repair, reconstruction, improvement, drainage or similar work and normal service extensions of public utilities or public service corporations shall not require approval unless such work involves a change in location or extent of a street or public area.

D. Any public area, facility, park or use as set forth in subsection A which is identified within, but not the entire subject of, a submission under either § [15.2-2258](#) for subdivision or subdivision A 8 of § [15.2-2286](#) for development or both may be deemed a feature already shown on the adopted master plan, and, therefore, excepted from the requirement for submittal to and approval by the commission or the governing body, provided that the governing body has by ordinance or resolution defined standards governing the construction, establishment or authorization of such

public area, facility, park or use or has approved it through acceptance of a proffer made pursuant to § [15.2-2303](#).

E. Approval and funding of a public telecommunications facility on or before July 1, 2012, by the Virginia Public Broadcasting Board pursuant to Article 12 (§ [2.2-2426](#) et seq.) of Chapter 24 of Title 2.2 or after July 1, 2012, by the Board of Education pursuant to § [22.1-20.1](#) shall be deemed to satisfy the requirements of this section and local zoning ordinances with respect to such facility with the exception of television and radio towers and structures not necessary to house electronic apparatus. The exemption provided for in this subsection shall not apply to facilities existing or approved by the Virginia Public Telecommunications Board prior to July 1, 1990. The Board of Education shall notify the governing body of the locality in advance of any meeting where approval of any such facility shall be acted upon.

F. On any application for a telecommunications facility, the commission's decision shall comply with the requirements of the Federal Telecommunications Act of 1996. Failure of the commission to act on any such application for a telecommunications facility under subsection A submitted on or after July 1, 1998, within 90 days of such submission shall be deemed approval of the application by the commission unless the governing body has authorized an extension of time for consideration or the applicant has agreed to an extension of time. The governing body may extend the time required for action by the local commission by no more than 60 additional days. If the commission has not acted on the application by the end of the extension, or by the end of such longer period as may be agreed to by the applicant, the application is deemed approved by the commission.

G. A proposed telecommunications tower or a facility constructed by an entity organized pursuant to Chapter 9.1 (§ [56-231.15](#) et seq.) of Title 56 shall be deemed to be substantially in accord with the comprehensive plan and commission approval shall not be required if the proposed telecommunications tower or facility is located in a zoning district that allows such telecommunications towers or facilities by right.

H. A solar facility subject to subsection A shall be deemed to be substantially in accord with the comprehensive plan if (i) such proposed solar facility is located in a zoning district that allows such solar facilities by right; (ii) such proposed solar facility is designed to serve the electricity or thermal needs of the property upon which such facility is located, or will be owned or operated by an eligible customer-generator or eligible agricultural customer-generator under § [56-594](#) or [56-594.01](#) or by a small agricultural generator under § [56-594.2](#); or (iii) the locality waives the requirement that solar facilities be reviewed for substantial accord with the comprehensive plan. All other solar facilities shall be reviewed for substantial accord with the comprehensive plan in accordance with this section. However, a locality may allow for a substantial accord review for such solar facilities to be advertised and approved concurrently in a public hearing process with a rezoning, special exception, or other approval process.

Virginia Code § 15.2-2233. Maps to be prepared in localities; what map shall show.

In localities where no official map exists, or where an existing official map is incomplete, the local planning commission may make, or cause to be made, a map showing the location of any:

1. Legally established public street, alley, walkway, waterway, and public area of the locality; and
2. Future or proposed public street, alley, walkway, waterway and public area.

No future or proposed street or street line, waterway, nor public area, shall be shown on an official map unless and until the centerline of the street, the course of the waterway, or the metes and bounds of the public area, have been fixed or determined in relation to known, fixed and permanent monuments by a physical survey or aerial photographic survey thereof. In addition to the centerline of each street, the map shall indicate the width of the right-of-way thereof. Local planning commissions are hereby empowered to make or cause to be made the surveys required herein.

After adoption by the governing body of an official map, the local governing body may acquire in any way permitted by law property which is or may be needed for the construction of any street, alley, walkway, waterway or public area shown on the map. When an application for a building permit is made to a locality for an area shown on the official map as a future or proposed right-of-way, the locality shall have sixty days to either grant or deny the building permit. If the permit is denied for the sole purpose of acquiring the property, the locality has 120 days from the date of denial to acquire the property, either through negotiation or by filing condemnation proceedings. If the locality has not acted within the 120 day period, the building permit shall be issued to the applicant provided all other requirements of law have been met.

Virginia Code § 15.2-2229. Amendments.

After the adoption of a comprehensive plan, all amendments to it shall be recommended, and approved and adopted, respectively, as required by § [15.2-2204](#). If the governing body desires an amendment, it may prepare such amendment and refer it to the local planning commission for public hearing or direct the local planning commission to prepare an amendment and submit it to public hearing within 60 days or such longer timeframe as may be specified after written request by the governing body. In acting on any amendments to the plan, the governing body shall act within 90 days of the local planning commission's recommending resolution; however, if a comprehensive plan amendment is initiated by the locality for more than 25 parcels, the governing body shall act within 150 days of the local planning commission's recommending resolution. If the local planning commission fails to make a recommendation on the amendment within the aforesaid timeframe, the governing body may conduct a public hearing, which shall be advertised as required by § [15.2-2204](#).
