## **ELEMENTARY CLASS SIZE**

Standard Two of the Standards of Quality requires School Boards to report to the public the actual pupil/teachers ratios in elementary classrooms by school. The pupil/teacher ratio includes full time classroom teachers. The method used for staffing elementary classrooms is the same method used for determining pupil/teacher ratios.

The table below shows the maximum class size that is specified for each elementary school by the Department of Education (DOE). The actual classroom averages are shown as of September 30, 2019. Each school's poverty level is considered in the staffing.
